

eWiSACWIS Release 2.3 Notes

Activity Notes

3688	Case Notes Reference Values	Two new Case Note Categories were added; Child Welfare Contact and Independent Investigation.
------	-----------------------------	---

Activity Notes

4223	Case Note Criteria Search - Order By	Case Note Criteria Search has been enhanced to allow each of the columns to sort. Date columns have a default sort order of descending and all other identified columns will have a default sort order of ascending.
------	--------------------------------------	--

Activity Notes

8585	Make Case and Provider Notes editable	A new workflow process was created for Case Notes, Provider Notes and Assessment Contacts. Narrative Notes will now be editable for 30 days from the date of creation, for open cases. Editing may only be done by the same worker who created the note. Workers may choose to Finalize the note at any point during the 30 days which will freeze the work. After 30 days has elapsed a new batch process will automatically mark the notes as finalized, freezing them and preventing future editing. The Correction Note button will not be enabled until the note has been finalized and frozen. Notes created for a closed case are immediately finalized and frozen and no editing is possible after the user saves the note.
------	---------------------------------------	---

AFCARS

9313	AFCARS not recognizing 1 day placement	Modified the AFCARS batch to recognize and count one day placements.
------	--	--

eWiSACWIS Release 2.3 Notes

AFCARS

9673	AFCARS reporting elements 59-66	Creating an Initial, Amended, or ID Change Medicaid certification will now cause the 'Child Receives MA' checkbox on the Medicaid History page to be selected by the Medicaid interface batch process. Submitting a Medicaid Certification Cancellation will cause the batch to uncheck 'Child Receives MA'.
------	---------------------------------	--

Approvals

9900	Approval Management warning messages	Added several warning messages to the Approval Management page to confirm the action the worker has selected, prior to executing the action.
------	--------------------------------------	--

Approvals

10036	Approval management page too big	Reformatted the Approval Management page to properly fit on screen resolutions of 800x600.
-------	----------------------------------	--

Assessment

9709	Initiating Assessment	When a user attempts to initiate the creation of an assessment before saving the assessment he/she just created, the system will throw the following message: "This Initial Assessment can NOT be saved. Another Initial Assessment has already been created and saved for the CPS Report(s) linked to the assessment (see Allegations tab > Report # field for a list of CPS Reports linked to the assessment)."
------	-----------------------	---

Assessment

9743	IA Narrative	Corrected the issue where multiple IA Narratives could be created and saved to one Initial Assessment.
------	--------------	--

eWiSACWIS Release 2.3 Notes

Case Visual Metaphor

7171	Case notes outliner enhancement	Case notes with multiple contacts will appear under the Narrative outliner once. By clicking on the note, the note will expand to show all participants the note was created for.
------	---------------------------------	---

Case Visual Metaphor

9961	Approvals	The Approvals on the desktop have been organized into three expandos (My Approvals, Approvals In Progress and Approvals History) to help users located approval information quickly.
------	-----------	--

Collect/Determine Eligibility

5624	Disable inaccurate ref value on ReDet tab	The reference value of "Not Deprived" has been removed from the Title IV-E Redetermination tab, question #1.
------	---	--

Collect/Determine Eligibility

9292	Elig sign off referral process	Title IV-E eligibility sign off has been modified to better capture the history and participants in the sign off process, as well as to eliminate multiple assignments to the same case.
------	--------------------------------	--

Collect/Determine Eligibility

9320	Add Case ID to the Eligibility page and ref hstry	Added the case ID to the header on the Title IV-E eligibility page. Also added the case name, case ID and child ID to the Eligibility Referral History pages.
------	---	---

Collect/Determine Eligibility

eWiSACWIS Release 2.3 Notes

Collect/Determine Eligibility

9347	Plcmt end override not setting eligibility end dt	Modified the processing which occurs when a worker overrides a placement ending and changes the end reason to a discharge. Doing this will now update the associated Title IV-E eligibility record with an end date, reflecting the fact the child was discharged.
------	---	--

Collect/Determine Eligibility

9387	Eligibility pages - remove/change questions	Question #3 on the Title IV-E eligibility redetermination tab has been completely removed.
------	---	--

Collect/Determine Eligibility

9390	Various online eligibility modifications	<p>Several changes were made to the Title IV-E eligibility pages and tabs:</p> <ul style="list-style-type: none">- The addition of Review Period dates. These are not required and will be filled in by Maximus staff.- Modifications to the text on the Basic tab relating to AFDC-MA.- The SSN is now a required field if the user selects Yes to question #2.- The effective date of question #3a is now required if the question is answered Yes.- Added a new reference value for N/A Determinations.- A narrative text box has been added under an expando to both the Initial and Redetermination tabs. This narrative is only accessible to Maximus staff and can hold up to 1000 characters.
------	--	--

Collect/Determine Eligibility

10338	Approve eligibility determination via search	Fixed an issue where State Title IV-E approval workers could sign off and complete and eligibility
-------	--	--

eWiSACWIS Release 2.3 Notes

Collect/Determine Eligibility

redetermination via the Search page. The Eligibility page will now be properly considered read-only via Search.

CPS Reports

9620

Problem with CIA and changing the response time.

The Response Time can now be changed by different workers until the worker screening decision is complete. The supervisor modification checkbox on the Access Report's Response Time Matrix will not be enabled until after the worker screening decision has been made.

CPS Reports

9770

PS Rpt freezing on Basic tab

When entries are made in the Allegations Detail group box fields, the tab functionality will not require the user to make an entry in a non-required field.

CPS Reports

9926

Edit person address in intake

Provider addresses cannot be edited on the Address Tab of the Person Management page (thru Access Reports or Home Inquiry) unless the provider is inactive with no open OHP or In Home Services and no active licenses.

Document Plans

9190

Not Approved FA prefills into CP

When creating a Case Plan if there are goals associated with a Family Assessment that have a status of 'not approved' then those goals will not copy to the newly created case plan.

Document Plans

eWiSACWIS Release 2.3 Notes

Document Plans

10065	PPH - Question 2 should not be required	Question 2 of the Judicial Tab is no longer a required field on the Perm Plan Review/Hearing Results if the Perm Plan Concurrent Goal is any value including blank.
-------	---	---

eWReports

9242	Dashboard problem with MLOS Report	The numbers on the sm10a21 Median Length of Stay child detail source report now correspond with the numbers on the Reports Dashboard. When sorting the Reports Dashboard for this report by Placement Setting, each placement setting value only shows up once. The report and the Dashboard also both now calculate the median value for length of stay in out-of-home care.
------	------------------------------------	---

eWReports

9799	Maltreatment in OHC (SM10a23) problem	In the sm10a23 Maltreatment in OHC report, the maltreater information is now consistent with the information documented in the Assessment window of the application.
------	---------------------------------------	--

eWReports

9823	sm10a20 Time to Adoption report	The Family Case Worker ID and the Preadoptive Child ID columns now display correctly on the Time to Adoption Report.
------	---------------------------------	--

eWReports

9874	Maltreatment Recurrence (SM06a03)	The SM06a03 Maltreatment Recurrence report now uses the user-entered field Date & Time Report Received instead of a system timestamp for the Report Received column. Also, the worker ID now displays correctly in
------	-----------------------------------	--

eWiSACWIS Release 2.3 Notes

eWReports

column I.

eWReports

9875	NCANDS	The IN0302 NCAND Child File will now display the Report Date from the CPS_REPORT.DT_RFRD field which pulls from the Date and Time Report was Received field from the Access window - Decision tab.
------	--------	--

eWReports

9876	sm10a24	The numbers on the sm10a24 - Re-Entry into Out of Home Care is designed to display children based on the latest date of removal within the query period. Many children re-enter into out-of-care multiple times during a 4 quarter period, the Dashboard displays the child only for the latest removal within a four quarter period. So if a child is removed multiple times during a 4 quarter period, the child's removal will only count in the latest quarter for which their was a removal. This is why the numbers appear larger when running for an individual quarter.
------	---------	---

eWReports

9877	sm10a25	Fixed bugs related to the SM10a25 report. Logged incident 10419 to identify ways to run the Reports Dashboard batch programs by quarter.
------	---------	--

eWReports

9879	Dashboard issue for sm10a20 Time to Adoption	The numbers on the Dashboard for the SM10a20 Time to Adoption outcome measurement now match the numbers
------	--	---

eWiSACWIS Release 2.3 Notes

eWReports

on the source reports.

eWReports

10127	CPS Timeliness Report	The CPS Timeliness Report has been modified to reflect the changes to the response time values: 0-2 Hours has been changed to be 'Same Day' Same Day has been changed to be 'Within 24 Hours' 24 Hours has been changed to be 'Within 48 Hours' 2-5 Days has been changed to be 'Within 5 Business Days'
-------	-----------------------	--

eWReports

10221	FM0215 crystal report	Corrected a problem on the Monthly Pre-Audit Payee EFT report so the provider ID is included.
-------	-----------------------	---

Forms

9970	Child's Bio.Family History page missing apostrophe	The apostrophe was missing from "Child's" on the forms selection page used for the copy over of the template. This has been corrected.
------	--	--

Foster Care/Out of Home Placements

5562	Check for approved Perm Plan when creating PP Tklr	The system will not generate a perm plan due tickler when an approved perm plan already exists and the perm plan date is greater than placement begin date.
------	--	---

Foster Care/Out of Home Placements

7005	Placement Ending	Added a new placement ending reason of "Fiscal
------	------------------	--

eWiSACWIS Release 2.3 Notes

Foster Care/Out of Home Placements

Cleanup" which can be found under the placement ending purpose of Administrative Change.

Foster Care/Out of Home Placements

7919 sm10a22 - invalid #s in summary report

The numbers on SM10a22 Time to Reunification summary report now match the numbers from the detail report and the numbers displayed on the Dashboard.

Foster Care/Out of Home Placements

9497 Objection Notice template (CFS-2129) date field

The date field at the top of the Objection Notice template will now display the current day's date when the template is launched.

Foster Care/Out of Home Placements

9909 Warning message to prevent placement of adults

If a worker tries to create a placement for someone over the age of 21 they will now receive an edit message asking "The person you are creating a placement for is over the age of 21, do you wish to continue?". If the worker answers YES, the system will allow the placement to be created.

Foster Care/Out of Home Placements

9917 Save button not enabled

Corrects a problem where the Save button on the Foster Care Rate Setting page was not being enabled if the only modification made was to the Rate Setting template.

Foster Care/Out of Home Placements

10011 OHP page rate display

The Out of home placement page now displays rates

eWiSACWIS Release 2.3 Notes

Foster Care/Out of Home Placements

correctly. This page retrieves the basic rate currently in effect for an open placement and the information from the Foster Care Rate Setting for exceptional and supplemental data.

Foster Care/Out of Home Placements

10013 FAE when opening placement end page

Modified the logic on the out of home placement ending page so an error does not occur following a parent agency change for the placement provider.

Foster Care/Out of Home Placements

10017 Foster Care Rate Setting

Modified the case work creation logic for foster care rate settings so users will be able to create a new rate setting, even if one already exists and is still open. Upon saving the new rate setting, the previous and currently open rate setting will be automatically ended and fully approved.

Foster Care/Out of Home Placements

10019 Allow modification to copied-over rate settings

Relaxed the edits on the foster care rate setting pages so users will be able to edit and update a copied-over rate setting. Also, rate settings will be able to be copied from any prior period and for any provider.

Foster Care/Out of Home Placements

10088 Modify placement settings

Added Statewide service categories, service types, and new placement settings to accommodate the documentation of Shelter Care and Secure Detention placements. Both in home and out of home services

eWiSACWIS Release 2.3 Notes

Foster Care/Out of Home Placements

were added. Paid and unpaid variations of each were added.

Foster Care/Out of Home Placements

10098	Placement ending not ending FCRS	Corrected a problem with the new foster care rate setting functionality. Ending a placement will now automatically end the corresponding rate setting record(s) for the reason 'Placement Ended', which cannot be overridden on the rate setting ending page. Ending a placement in error will automatically end all rate settings subsequent to that end date for the reason Made in Error.
-------	----------------------------------	--

Foster Care/Out of Home Placements

10304	Copy Rate Setting	Modified the foster care rate setting page to retrieve and prefill the most up to date basic rate when users are copying a rate setting, even if that rate setting was for a prior year with a different basic rate.
-------	-------------------	--

Home Inquiry

9829	FAE for unique scenario	An Application Message will no longer appear on the Provider Home Inquiry if participants are not added. A pop-up message will appear stating 'There are no family members'.
------	-------------------------	--

Home Provider

9146	County Provider ID	The County Provider ID field is not automatically inserting a blank row when the worker has treatment foster home maintenance security. The provider workers that can manage Treatment Foster Homes can select the
------	--------------------	--

eWiSACWIS Release 2.3 Notes

Home Provider

insert button to add a new row to record the County Provider ID.

Home Provider

9457

Person Search of Home Inquiry

If a person has applied to become a foster home provider and they have been screened out and home inquiry comments have been created, the user can drill down in person search and launch the associated Home Inquiry record to view the comments.

Home Provider

9820

Parent status is not picked by the Marital Status

On the Home Provider record, a pop up message will now appear if the marital status of Parent 1 and Parent 2 is not accurately reflected.

Home Provider

9972

TFH Security should be disabled w/o security

Fixed the home provider page so the status field is disabled for treatment foster homes if the worker does not have the appropriate treatment foster home maintenance security.

Home Provider

9975

Provider Link - Withdrawn License

Approved licenses with a status of withdrawn or denied should not have the 'Effective To' date overwritten with the date the worker 'completes' the provider link process. The 'Effective To' date should remain as the original 'withdrawn' date.

eWiSACWIS Release 2.3 Notes

Issue/Reconcile Checks

7002	Checks Pages -payment dates and sort	The payment begin and end date fields were added to both the Manual Checks page and the Check Disposition page. New functionality was added to the Manual Checks page which will allow users to re-sort the list of payments on the page - using the headers of each column to activate the re-sorting.
------	--------------------------------------	---

Issue/Reconcile Checks

9564	Check Number Recording Page	Users will now be able to select alternative sorting methods and sort-by columns on the Check Number Recording page. This will allow users to sort by payee name, to match up with the sort order on the Pre-Audit Payee financial report. Users may also sort by the other columns, if desired.
------	-----------------------------	--

Issue/Reconcile Checks

9903	EFT batch changes	** No release note required. Invisible in all respects to users. **
------	-------------------	---

Issue/Reconcile Checks

10303	Check Write batch fm0201-b	Fixed an issue with the checks processing batch so non-Milwaukee checks are not skipped when the provider is setup for EFT payment processing with BMCW.
-------	----------------------------	--

Issue/Reconcile Checks

10340	EFT being updated	Corrected a problem where the EFT Data Verification Report was reporting the name of the worker who last updated a provider, instead of the worker who specifically updated the EFT information on a provider
-------	-------------------	---

eWiSACWIS Release 2.3 Notes

Issue/Reconcile Checks

record. The ID recorded will now be properly limited to the worker changing or updating EFT information only.

Legal Consult

8743

Duplicate Legal Record

A legal record cannot be created in a Pre-Adoptive Child case until the nightly TPR copy batch has run. This prevents duplicate legal records from being created for the same child.

Legal Consult

9409

Legal Status enhancement

New Legal Status's have been added to eWiSACWIS. They consist of:

Agency Custody - placement w/lic provider
Agency Custody - placement w/relative
Agency Custody - placement w/non relative
Agency Supervision - placement w/non relative.

Legal Consult

9751

FAE on the Legal Doc page

Application error is no longer displayed when launching the text template from the legal document page when using the value Wisconsin Supreme court or Out of State Court.

Legal Consult

10366

Javascript error on legal doc through search

Javascript errors will no longer appear when users access a legal document through the Search page.

eWiSACWIS Release 2.3 Notes

Licensing Home Providers

8953	Services stay active on closed or expired licenses	When a Treatment Foster Home (TFH) license is closed or expired, the system will now inactivate the services from the TFH license. When the worker creates and approves a subsequent Foster Care license, the services on the old TFH licenses will now remain Inactive. Lastly, when Create Physical Address is created for a TFH, the TFH services remaining will be set to inactive.
------	--	---

Licensing Home Providers

9323	Remove date edits when License made in Error used	If a "License Made in Error" value is selected during the Additional Licensing Actions process the begin and end dates of the license made in error will not be used during the overlapping date validations for licensing.
------	---	---

Licensing Home Providers

9404	Licensing	If a provider's relicense is 'Not Approved', the existing license will remain 'Active Regular' and can be selected if another relicense is done.
------	-----------	--

Licensing Home Providers

9839	Additional Licensing Action page	<p>Fixes a problem on the Additional Licensing page which was causing the information entered by a worker to be deleted when it was opened for approval by a supervisor.</p> <p>Supervisors without the security access to maintain Treatment Foster Homes are now able to approve Treatment Foster Home licenses and Additional Licensing Actions.</p>
------	----------------------------------	---

eWiSACWIS Release 2.3 Notes

Licensing Home Providers

10097	Wrong email notification	When the status of the license changes, an edit check was added to the automated message processing. The Primary Worker will get an email only if the child is currently in an open placement at the time the status of the license changes.
-------	--------------------------	--

Maintain Case

9571	Restricted Case Checkbox	A supervisor will be prevented from restricting a case from person search.
------	--------------------------	--

Maintain Case

9667	Maintain case, Address tab	The application now longer displays an application error when you remove an existing date and select save from the Maintain case Address Tab. The user is prompted with the date validation message.
------	----------------------------	--

Maintain Case

9741	b-sm04a-tpr-copy does not copy OH safety plans	Out of Home Safety Plans now copy over to Pre Adoptive Child case when a child is TPR'd from the CPS Family case.
------	--	---

Maintain Case

9827	Maintain Case - Address tab	Users will no longer get an error when updating the Maintain Case address with # (symbol) and updating the participants' addresses.
------	-----------------------------	---

Maintain Case

9906	Intake Address automatically	When an Access report is screened in, the system allows
------	------------------------------	---

eWiSACWIS Release 2.3 Notes

Maintain Case

updating closed case

the user to link the Access report to an existing case (closed or open) or to create a new case. In the event the Access Report is linked to a closed case, the case address will automatically be updated to the Reference Person's address from the Access Report.

Maintain Case

9907

case address GIS lookup on update to SM04a

In Milwaukee, when an address update is made to the Case Address the system will perform the Site/Region and W2 look up. If the system determines that the Site/Region and W2 have changed, the user will receive an alert message indicating what the new values are and will be asked to confirm or deny the update.

Maintain Case

9910

TPR warning message

When a person over age 18 is being deactivated from a case for reason of TPR, a pop up message will appear stating 'The Person you are removing is over the age of 18, do you wish to continue?'

Maintain Case

10048

Legal docs multiplied by TPR copy batch

Under a child's legal record, if multiple legal action types with the same court number exist and there is a legal document created with that same court number for a child under the cps family case and the child is then tpr-ed from that case - the legal document will now be copied over only as a single record when the nightly tpr-copy batch is run.

eWiSACWIS Release 2.3 Notes

Maintain Services

8312	Maintain Service Type and Rate	On the Maintain Service Type and Rate page, workers can now complete the Service Category, Long Description, Medium Description, Short Description, and Service Code instead of first accessing the View Services Type window. Users will also be able to select and maintain other service types without having to leave the page and re-enter through Maintain > Service Types.
------	--------------------------------	---

Maintain Services

10415	Issue with which checkboxes are checked by default	Changed the Maintain Service Types and Rate page. None of the service setup checkboxes will default to being checked when a new service is created.
-------	--	---

Manage Trust Accounts

8659	Allow KIDS referral after placement is created.	<p>The logic on the out of home placement page was modified to facilitate child support referrals AFTER the placement has already been approved and saved. Question #3 of the KIDS referral section will be enabled if several specific criteria are all true, allowing workers to automatically send a referral after the placement has been opened and approved.</p> <ul style="list-style-type: none">- Placement is still open.- Placement is for a paid service type.- KIDS question #3 is No.- A referral was not already sent.- A referral is not open in another case.
------	---	--

Manage Trust Accounts

9985	Add page edits - Closed Case Trust Account	Users will no longer be able to use the Closed Cases - Trust Account search page to create another trust
------	--	--

eWiSACWIS Release 2.3 Notes

Manage Trust Accounts

account for a child if they already have one within the same county.

Manage Trust Accounts

9992

Changes to KIDS Daily interface file

Modified the KIDS interface file to include three race codes and the hispanic indicator flag for all applicable records.

Manage Trust Accounts

10083

KIDS daily file field not reinitializing

Fixed two issues with the KIDS daily interface file TPR record where a single person's suffix was being sent for multiple person records, and where a SSN was being sent for other family members if they did not have a SSN in the system..

Manage Worker

4841

Job title change

The Job Class user entered data field has been increased to 40 characters to allow for additional text for job class titles.

Manage Worker

9357

Inactive Worker

When a worker (or the worker's supervisor) is set to Inactive, the worker is prevented from logging into eWiSACWIS.

Manage Worker

9542

Worker Management

Added 4 fields to Individual Training History tab on worker Information page:

eWiSACWIS Release 2.3 Notes

Manage Worker

Begin Date of Child Welfare employment in Wisconsin:
MM/DD/YYYY
Ongoing Training is current as of: MM/DD/YYYY
Pre-Service Training Completion Date MM/DD/YYYY
Foundation Training Completion Date MM/DD/YYYY

Merge Person

9271	Person merge	Data fix. Deleted the 14 erroneous data entries in county_person_cross_ref table.
------	--------------	---

Merge Person

9272	Person Merge Duplicate	The Person Merge Delete page will now display the reason why a person merge failed.
------	------------------------	---

Mobile Computing

9734	Web Application Server 6 Express Issue	The eWiSACWIS Anywhere offline application is now compatible with Websphere Express 6.0.
------	--	--

Mobile Computing

10079	Person Merge	Corrected an issue with the Person Merge page displaying the incorrect Date Created. The page now correctly displays the time when the person was created in the system.
-------	--------------	--

Office Automation

9565	Pasting method affects the character limit edit	Regardless of the pasting method applied (either right click or Ctr+V) the system enforces the field's character limit.
------	---	---

eWiSACWIS Release 2.3 Notes

Person Management

6602	Person Management Background Check	When the background check information is saved, the information becomes frozen and the Delete link no longer displays at the end of the row. Additional information can be inserted.
------	------------------------------------	--

Person Management

8516	Person Management Basic Tab prefill citizenship	When creating a new person, the US Citizen checkbox will automatically be checked on Person Management - Basic tab.
------	---	---

Person Management

9376	Add a cell phone field to person magt page	A cell phone field has been added to the address management page to record the cell phone number for the person. This will display on the Address Tab of the Person Management pages.
------	--	---

Private Provider

9540	Java script error when changing provider type	Fixed an issue on the private provider page which caused a Javascript error to occur.
------	---	---

Private Provider

9588	FAE on private provider creation	Fixed a bug which caused an error if a private provider was created without any associated services when the user selected the All Counties radio button.
------	----------------------------------	---

Private Provider

9779	Search pg for Private Provider is	When opening the Approval Page for a pending private
------	-----------------------------------	--

eWiSACWIS Release 2.3 Notes

Private Provider

not frozen

provider record through Search, the page will be displayed as View Only.

Private Provider

10374

Service category filtering

Corrected an issue with adding services to private providers. All service categories which are not explicitly for Group Homes or RCCs will now show up when the provider type is Group Home or RCC.

Process Payments & Purchase Requests

9883

Payment Narrative

Added new functionality to the payment generation batches to insert a short textual description indicating why a payment or overpayment was created. Examples are: 'Created as a result of a placement,' and 'Created as a result of a backdated foster care rate setting'. These textual descriptions can be viewed on the payment request page.

Process Payments & Purchase Requests

10248

Calc Ongoing - full month basic rate

Modified the calc ongoing payment batch so the basic rate is not prorated if the placement spanned the entire month, even if there is a rate setting in effect for only part of the month.

Search

9840

Person Search

The code for searching has been updated and the application no longer displays a validation error page when using the City and Incl. AKA checkbox processing.

eWiSACWIS Release 2.3 Notes

Spell Check

9555	Spell Check	Spell Check no longer replaces apostrophes with question marks in narrative fields on system pages including the Initial Assessment - Primary Caregivers page and Case Notes page.
------	-------------	--

Ticklers

8777	PPR tickler deletion via plcmnt discharge	When a child is discharged from all placements, the Permanency Plan Review and Permanency Plan Hearing ticklers will be deleted.
------	---	--

Ticklers

8905	EFT tickler deletion	Added the code to the provider maintenance pages to delete worker's EFT ticklers when the provider payment method is set to Electronic Funds Transfer.
------	----------------------	--

Ticklers

9790	New tickler expando on desktop for supervisors	Modifies the way ticklers are organized and displayed on the desktop - specifically for supervisors. If a supervisor has at least one worker assigned under them they will have two expandos under the Tickler expando: My Ticklers and Escalated Ticklers. Supervisors will be able to view their own specific ticklers under My Ticklers expando. If supervisors desire to view escalated ticklers from their workers they will be found under the Escalated Ticklers expando. This new functionality should assist supervisors with a large number of workers who also need to keep track of ticklers for their own work.
------	--	--

Voluntary Services Referrals

eWiSACWIS Release 2.3 Notes

Voluntary Services Referrals

9189	Arbitrary name is being pulled up with provider	When assigning a Home Inquiry to a supervisor for a screening decision, the Create Work Assignment page is accessed. In the Assignment Detail For field, the name of 'Parent 1' identified from the Home Inquiry will display.
------	---	--

Worker Assignment

9076	New Reference Values for Assignment	A new assignment type of "Administrative" was created. This is a secondary-only type of assignment.
------	-------------------------------------	---

Worker Assignment

9372	Financial Assignment	Created a new assignment type of "Financial". This is a secondary-only type of assignment.
------	----------------------	--

Document Plans

10462	Production issue with SM0802 - Perm Plan	the SM0802 Perm Plan report now runs successfully against production database.
-------	--	--

eWReports

10318	Fixes to SM10a32 SM0802 SM06a06 Rpts for loader	The report output files for the SM10a32, SM0802, and SM06a06 reports have been modified to allow for uploading into eWReports.
-------	---	--

NCANDS

10289	Problem with NCANDS Rpt	If there is a Perp3ID present on the NCANDS report it is now a unique Perp3. This column will no longer repeat the person ID from the Perp1ID field.
-------	-------------------------	--
